A Dismal Fire in Montreal—Nine
Men Killed and Buried Under Red
Hot Bricks.

MONTREAL, Canada, April 30.—At 5 o'clock this morning a fire broke out in the Montreal Novelty Works, St. Urban street. Owing to the immense amount of inflammable material stored in the premises all efforts to save the building were fruitless. It was five stories high, and the walls fell outward with a terrible crash, breaking through the roof of a coffin store, and completely demolished a number of sheds and outhouses. Eight firemen, under Chief Patton were playing upon the roofs of the sheds and coffin store when the wall fell. They saw the wall begin to totter, made a rush for the shed, and barely got inside when they were completely buried under several feet of hot bricks. After the walls fell the moans of the firemen rent the air. A band of citizens went to work to dig them out. The firemen remained under the ruins about an hour before rescued. Four were found beneath a board fence, but suffering terribly. Nine were taken out dead. Three were recognized as firemen. The bodies were terribly disfigured.

How the European War is Helping
Us.

WASHINGTON, D. C., April 29.—The existing troubles between Russia and Turkey and the unsettled condition of other European Powers, creates a demand upon this country for material suitable for ship building, and agents of several foreign Powers are here purchasing. Two cargoes were recently shipped to France, and it is said that more has been purchased for Great Britain.

New York, April 29.—Large sales of horses for the French light cavalry service have been made here during the past week.

Parson Brownlow Dead.

KNOXVILLE, TENN., April 30.—Ex-Senator W. G. Brownlow died here, suddenly, to-day.

Our Minister to France.

WASHINGTON, April 29.—It seems generally accepted that ex-Governor Noyes will succeed Washburne, although the matter has not been formerly determined in a Cabinet meeting. When Washburne left here a few weeks ago his understanding was that he would return to France and remain till next Fall, and it is not likely therefore that his successor will be nominated until that time, and perhaps not until the assembling of Congress in December. It will be remembered that Washburne and Evans had some correspondence with reference to the retirement of the former from the French mission and as result next Fall was fixed by Washburne as the time when he desired to be relieved. Unless Washburne expresses a desire for an earlier date it is not probable that the President will name his successor till the regular session of Congress. It can be stated with authority that no appointments in the diplomatic and consular service will be made prior to the June session of Congress, except to fill vacancies.

Chamberlain's Officers Field.

New York, April 30.—A Columbia special announced to-night upon the best authority, that the Republican contestants for the several offices of Secretary of the Treasury, Secretary of State, Comptroller, Attorney General, Adjutant General, Inspector General and Superintendent of Education, after frequent conferences and mature deliberation, have finally determined to withdraw all claims to the offices specified and formal surrender of the same is to be publicly announced to-morrow. Chamberlain leaves the State to-day for good. He goes to Washington.

Corruption in the Navy.

New York, April 30.—The Sun's Washington dispatch says that the summary action which Secretary Thompson took yesterday in removing the Chief Constructor of the Navy, Hanscom, is to be followed in dealing with other transactions which the Secretary has unearthed. A contract for iron, bought at 35 cents a pound, when other bidders were ready to furnish the same at 15 cents, is mentioned. This is one of the contracts on which Secretary Thompson ordered the payments and work stopped ten days after taking his seat in the Department. No small amount of consternation has been excited among the contractors by these occurrences.

Opportunities for Manufacturers.

Rhode Island has 2,019 manufacturing establishments, with an invested capital of nearly \$50,000,000, and employing 56,450 hands, to whom are paid in wages yearly the sum of \$23,707,513, or an average of about \$420 each. The raw material used is valued at \$76,715,970, and the value of products yearly is \$129,659,875. There has been a large increase during the past year in the number of establishments engaged in manufacturing, and in the results of their business. There are 133 cotton factories, with a capital of \$24,034,200, employing 22,574 hands, and yielding goods worth \$38,927,960.

The Enterprise comments on the above as follows: "The above showing, from an Eastern paper, is worth a little thought here in Nevada. By her work little Rhode Island makes the men of Nevada pay a part of the wages of her 56,450 workmen. It would be a great deal better could we save the money. There is no better water-power in Rhode Island than can be found on the Truckee. Wool is far cheaper here than in Rhode Island; cotton from the islands and mainland of the Southern Pacific could be secured and brought here as cheap as it is to Rhode Island; material for making paper is abundant and cheap, besides in a hundred manufactories for this State all that is needed is the transfer of a little capital here and the importation of some skilled workmen. We believe there is a tannery and a flour mill on the Truckee, and nothing more in the way of manufactories, save, of course, lumber and some common materials made of lumber. Everything used in the State, save a little horse feed, some vegetables and the meats eaten, is brought from abroad; and when the man in Nevada makes a purchase of anything he is obliged to pay not only the primitive cost, but also the profits of half a dozen middle men and companies. The result is that labor must be high in order that men may live at all; and every industry requiring the aid of men and machinery must pay tremendously, to leave any margins to owners. It would be a curious exhibit to see exactly what is paid out by the people of Nevada yearly for iron in its most ordinary forms. And yet, down on the Carson, not ten miles from this city, is, almost, an iron mountain. Between Peavine and the Truckee river, not ten miles from the Central Pacific, is a mountain of magnetic iron, computed some years ago, by a distinguished engineer, to carry eighty per cent. of iron. The people here do not consider such things, because all are either engaged directly in mining or in supplying mines and miners. The consequence is that a depression in mining means the prostration of the country, and though Nevada furnishes \$50,000,000 to the world annually, \$30,000,000 of which is clear profit, the people here are as a rule less prosperous than in States where the profits in business are reduced to margins so slight that the ordinary business man of Nevada, with a start of \$100,000, would not last a year were he forced to do business on the same sale. Nevada never can have a great agricultural backing. The State can never rely upon anything but her mines and such manufactures as may be created here. There is a splendid, though limited, field for certain manufactures in this State, and had this field been supplied so that, say even 3,000 men might find employment in that way, the result for good would be so marked that we think moneyed men would see at once that their interests lay in further developments of the same kind."

Improving Home.

Lawyer Webster has been doing some good work in and around his residence this Spring, and now finds himself several hundred dollars out of pocket, but several thousands in comfort, and all that goes to make home pleasant and attractive. He has had the upper story of his house all hard-finished, has painted and papered the entire building inside and outside, and made many improvements to the garden, where Mrs. Webster takes such delight. It seems but as yesterday, though it is many years ago, that the Judge selected and built upon his present location. Then he was surrounded by rocks and sagebrush, but now his portion of town is dotted with fine residences and the like.

Left Town.

Constable Barlow pulled a couple of vags yesterday, and Judge Richardson let them off on condition that they would leave town by 4 P. M. According to all accounts they departed on time.

Daysies Returned.

A camp of these wandering Arabs, who profess to gaze into futurity and snatch from its grasp the destinies of people by gazing in the sky, turning tea-cups, and tracing the veins of one's hand, etc., have returned to Reno. They were here last Summer, but after a brief stay, folded their tents, and we next heard of them on the Comstock. High fortunes, rich heiresses, etc., are now in order for such Renoites as will pay for that class of luck. The bigger the fee the better the fortune.

Paid Off.

The C. P. pay car made its welcome appearance Sunday morning and left a rather month's pay for the boys. Silver was the predominating coin used, as usual.

The jury in the La Point case have a pretty hard time of it owing to the duration of the trial. Last Sunday Sheriff Lamb, took them out in the Lake House 'buss for a ride, and took them to Glendale, where they were entertained in first class style.

The Sheriff of Modoc county, Cal., went through town Saturday night, bound for Stockton, having in charge an old settler of that county called Capt. Strassenger, who had gone crazy, because of domestic trouble.

THEODORE TILTON and his daughter Florence were on the overland train which passed through here Sunday night going West.

The road from Virginia city to Steamboat Springs, over the Goiger grade, is in better condition than it ever was before. It is smooth and free from dust.

An interesting letter will be found under the head of "New To-day." Cohen tells us he picked it up on the street, but we hardly believe him. Read the letter.

The Riverside Club has decided to have a dance May 10th. Particulars will be announced hereafter. A club meeting is called for next Saturday night at 7:30, at the Depot Hotel.

Buy no insect powder unless the name of A. H. Barnes, Reno, Nev., appears printed on the label. It is the most reliable article in the market.

A LARGE number will go down to the Glendale picnic to-day. We know all will have a good time.

MESSAGES undelivered at the Western Union office for W. B. Heaton and E. A. Warner.

Stocks are down again—worse than ever. My kingdom for a development!

NEW TO-DAY.

MY LOVE!
MY LIFE!
MY SOUL!
MY JOY!
DARLING ALL!
Letter received; my heart was racked and torn for the cuff rings I caused you, but 'tis over past, forgive me. Oh, forgive me! Grant my request and I will purchase you one of Uncle H. M. Cohen's \$15 diagonal suits, which are really worth \$30. Next door to D. A. Bender & Co.'s Bank, Commercial Row.

MILLINERY,

CARPETS,

OILCLOTHS,

WALL PAPER,

GENT'S FURNISHING GOODS

—JUST RECEIVED AT—

GREY & ISAACS'.

We take pleasure in announcing to the ladies of Reno and vicinity that we have now received our entire Spring stock, which will be found upon examination to be most complete in every department, having been selected with the greatest care and taste. We can safely assert, without fear of contradiction, that ladies can now make their purchases at our establishment cheaper than the same goods can be purchased from any San Francisco house. Our stock is so varied and extensive that it would be useless to attempt to enumerate it, therefore we cordially invite the ladies to call and examine our vast and most elegant assortment of goods, being assured that at all times they will receive our most courteous and polite attention whether purchasing or otherwise.

Very Respectfully,

GREY & ISAACS.

We are now in the midst of the Centennial celebration—that is the ten years period during which celebrations will abound. This decade commenced in 1875 and will continue till 1885, or perhaps some little time thereafter, making a long drawn out decade, as it will not do to pass over without notice the Centennial of the adoption of the National Constitution. This is a notable Centennial year in the history of New York. In town of Kingston, in that State, in 1777 there occurred the adoption and the formal proclamation of the State Constitution, the inauguration of the first Governor (DeWitt Clinton), the meeting of the first Legislature, and the burning of the place by the British. The people of Kingston wish to roll all these events into one grand Centennial and have the general celebration the 30th of June next, that being the one hundredth anniversary of the inauguration of Governor Clinton. The State is asked to contribute twenty-five thousand dollars toward defraying the expenses of the celebration—\$5,000 for each of the notable events to be commemorated. Although Kingston was the scene of such important events one hundred years ago it is now of little note. It is the county town of Ulster county, situated on the Hudson, 90 miles above New York, and has a population of about 5,000 people. The house in which the first Constitution of the State was framed is said to be still in existence.

SOMETHING ABOUT THE POPULAR VOTE.—The assertion of the Democratic journals of this nation that President Hayes is the only man who ever entered the White House with a popular majority against him, is utterly false, and the men who spread the story know it to be so. In 1844 James K. Polk, a Democrat, was elected with a popular majority of 24,119 against him. James Buchanan, the last Democratic President, was beaten in 1856 by a popular vote of 377,623; but having a majority of the electoral college he was legally elected, and no Republican was found contemptible enough to call him a "fraudulent President," because the majority of the popular vote was against him. In 1869 Abraham Lincoln was legally elected President, and yet the popular majority against him was 944,149, nearly a million of votes.—*Gold Hill News.*

Over one hundred thousand coolies are now in Cuba under a contract to work for eight years at \$1 per month. Their sufferings are far more horrible than the worst ever known by enslaved Africans, and the Chinese government is now taking steps to break up the coolie system. That is all the anti Chinese associations in America ask for. If there are no coolies there will be no trouble about the Chinese in the future, as all who may come here as regular immigrants cannot have an effect upon the labor market.

A GENTLEMAN at Abingdon, Va., has a pet fish. He has kept it in a spring for five years, and can go and call it up at any time. It comes from his hand, and shows a marked liking for its keeper. It is a black perch, 20 inches long.

It is probable that within a few days the Secretary of the Treasury will issue the forty-sixth call for the redemption of ten millions of five twenty bonds.

MISCELLANEOUS.
